

Amincor — Capability Statement

CAGE	1B7X2
UEI	NN9EZSGTV1N5
Primary NAICS	332710 - Machine Shops

Core Competencies

- Precision CNC Machining - 3-, 4-, 5-, and 6-axis milling; live-tool turning; Swiss turning / Swiss cam; screw machining (high-volume production) ; EDM (wire/sink); gear cutting; grinding; tight-tolerance mission-critical parts; stainless & hardened steels, red metals (bronze, copper, brass), and plastic polymers; aluminum, nickel-based alloys (Monel, Inconel, etc.), tungsten and other exotics .
- Managed Special Processes - anodize, chem-film, passivation, paint, dry-film lube; heat treat; NDT (PT/MT); shot peen; plating (hard chrome, EN, zinc, cadmium, silver, phosphate); black oxide; centerless grinding.
- Assembly & Kitting - hardware install, torque & mark, serialization; MIL-STD packaging; stock-to-dock; close-tolerance fitting; subassembly integration; secondary machining.
- Fabrication & Tooling - tool & die design/build/repair; precision fixtures; laser cutting; turret punching; press brake; sheet & plate fab; prototyping; stamping; wire EDM; welding (MIG/TIG).
- Value-Added - gear/rack (spur, helical, matched sets); custom fixtures/inserts; secondary ops (chamfer, deburr, counterbore, ream, electro-etch, chemical etch, ink stamp, paint/form); powder coat; MIL-STD-130 marking (laser engrave/mark, dot peen, photo anodize, abrasive blast, rotary engrave, acid etch, metal stamp); managed inventory; rapid prototyping.

Bottom Line

- Former machine shop and current defense contractor / supply-chain integrator
- Centralized program management and single line of accountability
- Proven track record of on-time delivery to federal programs
- Deep bench of qualified precision machine shops across the U.S.
- Rapid scaling for surge or expedited production needs
- Secure ITAR-controlled workflows and CUI best practices

Quality & Compliance

- ISO9001:2015-aligned Quality Management System
- ITAR Registered - CMMC-ready practices
- PPAP / AS9102 FAI - SPC - Lot and material traceability
- CMM, vision, and calibrated handheld metrology
- FAIRs, CoCs, material/process certs, ballooned drawings

Company Data
